

Shasta Lake Trails Guide

Shasta Unit • Whiskeytown - Shasta-Trinity National Recreation Area

Shasta-Trinity National Forest

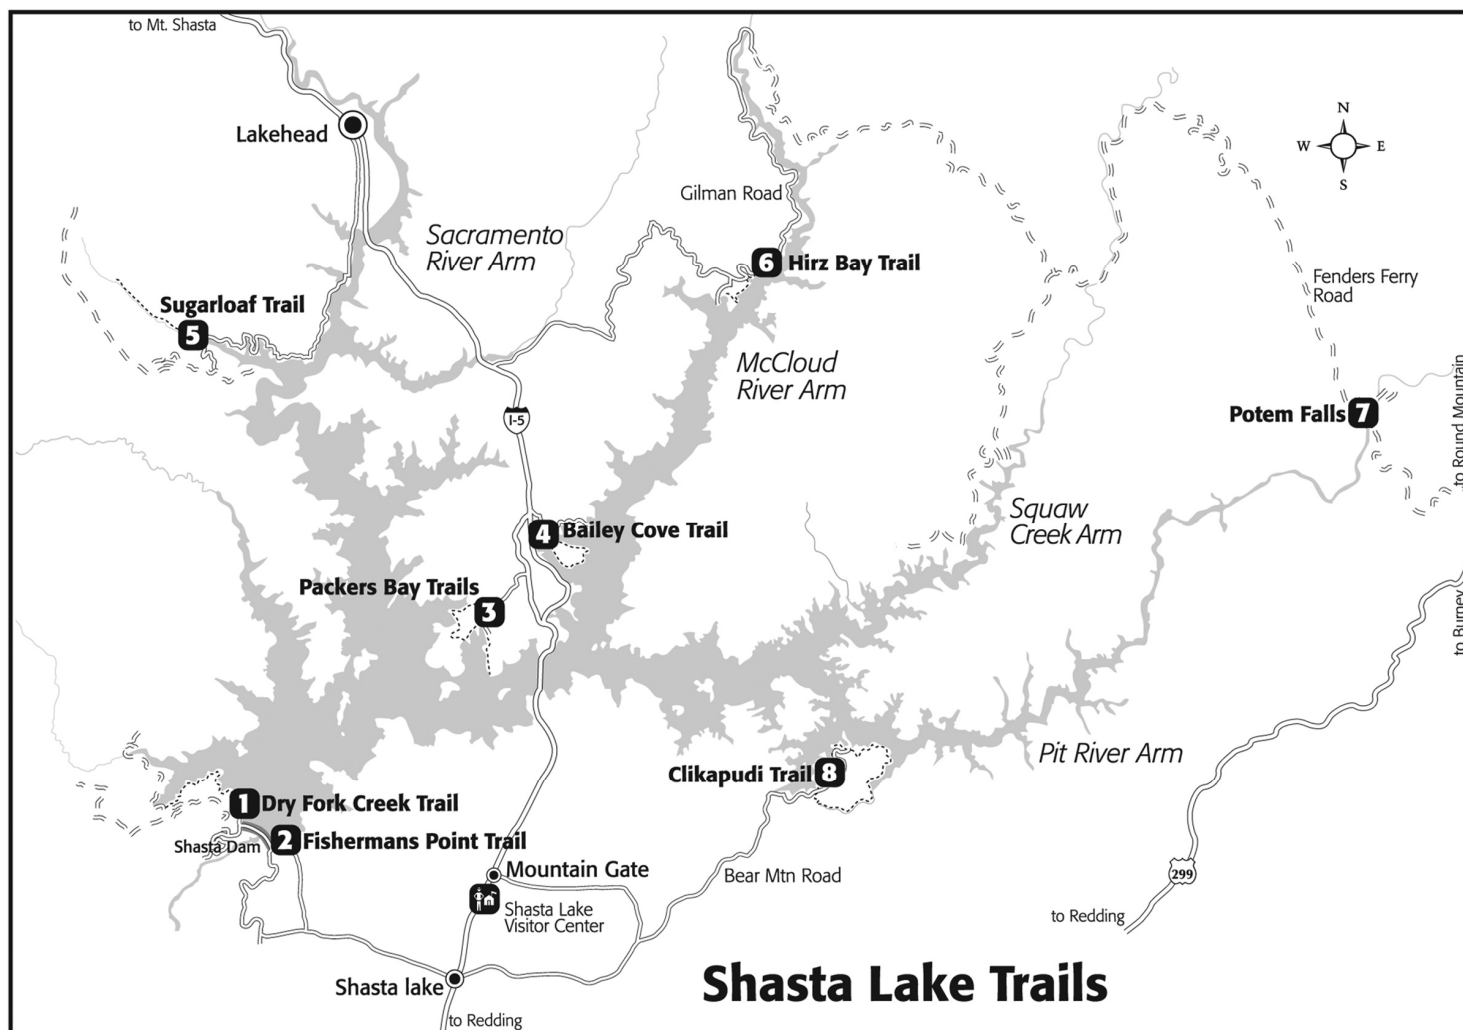

Many of the trails at Shasta Lake follow the lake shoreline. They offer plenty of opportunities for day hiking, mountain biking, running, fishing, sightseeing and wildlife viewing (summertime temperatures at Shasta Lake are generally not suited for multi-day backpacking). Three of these shoreline trails, Bailey Cove, Waters Gulch, and Klikapudi make loops that return to their point of origin. Bailey Cove is the shortest of these loop trails and also the easiest. Klikapudi Trail is the most extensively developed trail at the lake and requires two to three hours to walk. Bailey Cove, Klikapudi and Waters Gulch are also very popular with mountain bikers and trail runners. The Waters Gulch loop is impassable to horseback riders.

The Hirz Bay Trail connects Hirz Bay and Dekkas Rock campgrounds. This is an easy trail and especially pleasant in the summer during warm evening or cool morning hours. The trails

at Dry Fork and Fisherman's Point were developed to assist fishermen to get into the good fishing areas near Shasta Dam.

Please help us maintain these beautiful trails by practicing the following trail ethics: If you carry it in, carry it out. DO NOT bury your garbage. Animals will dig it up and scatter it. Please pick up litter as you encounter it. Bury human waste at least 200 feet away from trails, water sources and campsites. Dig a cat hole six inches deep, make your deposit and cover it with the soil that you removed.

All trails are subject to occasional closures due to things such as storm damage. Please check <http://www.fs.usda.gov/recmain/stnf/recreation> for the most up-to-date information before your visit.
